MR[®] 65 WK Anti-Adhesion-Concentrate

1:10, water-soluble

General appearance and composition:

- free of silicone and water based
- avoids adhesion of welding beads
- the product does not have to be labelled as hazardous product

Field of application:

- for MIG/MAG and electric welding

Application:

- dilute 1:10 in water
- apply a thin and even layer of the solution on welding area using suitable application techniques
- remove welding beads with cloth or brush
- use at room temperatures

Minimum shelf life:

- will keep for a minimum of 1 year, stored at room temperature

Pack sizes:

- 1 kg, 5 kg
