

Equipment

Product information

Luxmeter Type LX1330B digital

Luxmeter Typ LX1330B digital

Digital Luxmeter for checking the level of luminance acc. to EN ISO 3059
incl. calibration certificate

Technical data

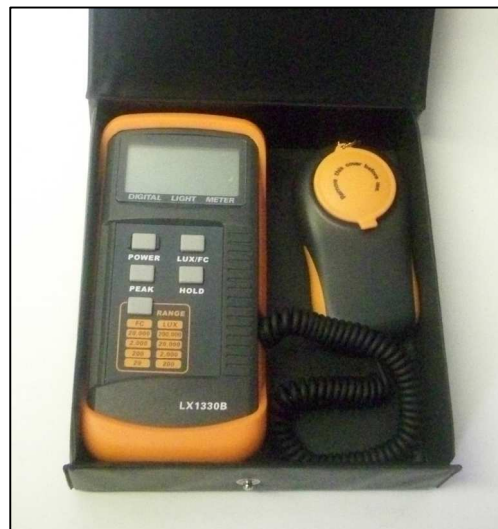

Measuring range:	0-200.000 Lux
Resolution display:	1 Lux
Accuracy:	below 20.000 Lux +/- 3 % over 20.000 Lux +/- 5 %
Dimensions:	100x60x28 mm Photo Detector
Dimensions:	149x71x41 mm Luxmeter
Power supply:	1x9 Volt battery
Weight:	280 g (incl. battery)
Operating temperature:	-10 °C to 60 °C
Humidity:	0-80 %
Order-No.:	B113 L

Characteristics

- Battery indication
- 4 measuring ranges selectable
- Big LCD-display
- Hold-function
- Self calibration

Delivery scope:

- calibration certificate
- 1 battery (type 23 A)
- safekeeping box
- operating manual

Please note: This equipment is NOT suitable for measuring the white light portion of UV-light.
