MR[®] 500 Anti-foam emulsion

additive for aqueous magnetic powder suspensions

General appearance and composition:

- Emulsion of low viscosity
- Additive for the diminishing of foam formation when preparing aqueous magnetic powder suspensions
- No declaration of hazardous ingredients – ECO-LINE

Application:

- Most water dispersable MR[®]-Magnetic powder concentrates already contain MR[®] 500 Anti-foam emulsion, but if needed it can be added the preparation to increase the effect
- Depending on your needs, add approx. 0,001 % - 0,5 % to the aqueous magnetic powder suspension

Minimum shelf life:

- Will keep for a minimum of 1 year, stored at room temperature
- Please note:
The emulsion will be stabile only for a few weeks, i.e. a phase break may occur. In this case, shake or stir the emulsion. This does not affect the effectiveness of the product.

Pack sizes:

- 1 kg
