MR[®] Piccolo-Pens

- The little pen for precisely accurate testing! -

MR[®] Piccolo-Pen offers an alternative to the standard application methods like spraying or brushing for Penetrant Testing.

MR[®] Piccolo-Pen is intended for a quick and specific use and has proven its worth in practice.

MR[®] Piccolo-Pen is especially useful in areas where you know discontinuities occur by experience. The pen is mainly used by automobile as well as service industries (TÜV, etc.).

The complete penetrant system is available:

Penetrant fluorescent ▪ Penetrant red & fluorescent ▪ Remover ▪ Developer

Following Piccolo-Pens are available:
