Product information

MR[®] 811 Marking paint white

MR[®] 811 Marking paint white

serves to coat surfaces in order to
better see produced markings

General appearance and composition:

- Coating material containing solvents, free of aromatics
- Dries quickly and forms a smooth white film
- Processing temperature +10 to +50 °C
- Temperature resistance up to +80 °C has been verified
- Low contents of corrosive ingredients

Application:

- Remove fat and oil from surface of the work piece in a suitable manner
- Spray a thin film MR[®] 811 Marking paint white on the surface and allow to dry for a few seconds
- After drying the surface can be worked on (marked)

Minimum shelf life:

- Will keep for a minimum of 4 years, stored at room temperature

Pack sizes:

- Aerosols, 500 ml (1 box contains 12 aerosols)
