Product information  
MR<sup>®</sup> 822 Coupling oil

# MR<sup>®</sup> 822 Coupling oil

for ultrasonic testing

---

### General appearance and composition:

- Oil based
- Suitable for many surfaces
- Good wettability
- Neutral odour
- Aerosol over head sprayable

### Application area:

- Coupling agent for ultrasonic testing

### Application:

- Spray MR<sup>®</sup> 822 Coupling oil from a distance of approx. 30 cm on the test piece, bring probe into contact with the surface and begin testing. MR<sup>®</sup> 822 will disperse evenly under the probe.

### Minimum shelf life:

- Will keep for a minimum of 4 years, stored at room temperature

### Pack sizes:

- Aerosols, 500 ml (1 box contains 12 aerosols)
- 5 L
