

## REFLECON® Tarnish 50

Type 1

### PRODUCT CHARACTERISTICS

- Optimized **CYCLODODECANE** for 3D laser scanning
- Solvent reduced and pleasant odor
- 100 % sublimation – no residues remaining on the surface
- No need for post-cleaning of the sprayed surfaces, as with all REFLECON® Tarnish Type 1 products.
- Very long sublimation time (up to 10 hours) compared to other REFLECON® Tarnish Type 1 products, depending on the object surface to be scanned and temperature
- The sublimation time can be controlled by the film thickness and the ambient temperature.
- Suitable for all surfaces, but a compatibility test is recommended in advance
- Particularly suitable for large objects due to the long sublimation time
- Clean surfaces completely before use (e.g. from dust and other dirt).
- Spray distance 20 - 30 cm
- Very good, thin and uniform spray pattern on the surface to be scanned
- Very good adhesion and removability of the marking dots on the applied film - at average film thickness
- Available in aerosol can, 500 ml (12 cans/carton).
- Minimum shelf life: 4 years at storage temperature
- Storage temperature: 5 - 45 °C
