

**REFLECON® Tarnish 30 Type 1 - Sublimating**

**SUBLIMATING**

**30**  
**1L|5L**

**PRODUCT CHARACTERISTICS**

 **≈ 5-15 min**

- Sublimation time depending on object material & surface and ambient temperature
- Suitable for uncoated objects and the most common types of laquer
- No post-cleaning of the objects
- Very good, thin and uniform spray pattern
- No dust residue while spraying → protects the fan of the laser equipment
- Solvent reduced & reduced odor
- Declaration acc. to GHS
- Excellent wetting characteristic on surfaces
- Wood compatible
- Very good adhesion and removability of marker points
- Spray distance 15 – 20cm

**NOTICE**

Clean surface completely before use (e.g. from dust). As soon as the surface is dry, it can be touched - **REFLECON® Tarnish** will then no longer smear. Very good adhesion and removability of the marking points in the applied film – with an average layer thickness.

Minimum shelf life: 3 years at storage temperature (5 – 30 °C) for container. The state of aggregate changes at a temperature below 5 °C. When the temperature rises above 5 °C, the state of aggregate will normalize.

Available in 1L und 5L (container)
