

UV CLEAN CHECK PEN (SC 30)

Description

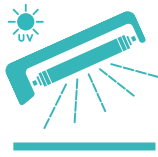

- Practical control pen for checking cleaning quality using UV technology.
- Hygiene control of cleaning and disinfection measures and ideal for training purposes of cleaning personnel etc.
- Invisible on most surfaces - becomes visible when irradiated with UV light

Application

1.) Marking surface

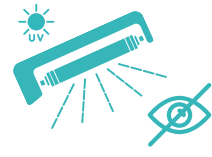

2.) Marking is visible under UV light

3.) Clean surface

4.) Control surface with UV light

When properly and thoroughly cleaned, no more markings are visible!

Minimum shelf life & temperatures

- 3 years at storage temperature
- Storage: + 5 °C - + 45 °C

Fields of application

- Can be used on all smooth surfaces that are non-porous & not highly absorbent.
- Ideal for hygiene-critical areas (e.g. sanitary, hotel, hospital, laboratory, public facilities, cleaning companies, private households, etc.)
- Applicable also on wet and damp surfaces (e.g. toilet, wash basin etc.)
- Mechanical or chemical effort is required to remove the markings (e.g. rinsing with water alone is not sufficient)
- For industrial use only
